Simple and modern in design, the MELA pendant luminaire adapts to any style of living. The nine-flame pendant luminaire, mounted centrally above the dining table, becomes a real eye-catcher and provides optimal lighting conditions. Due to the futuristic shape of the glass shades, they emit the light in a special way to their surroundings and create cosy light accents. The timeless design in matt black and smoked glass leaves plenty of scope for other colour tones and makes it wonderfully easy to integrate into existing living concepts. For energy-saving lighting, it is recommended to use an LED illuminant. These are an optimal alternative to conventional halogen lamps and stand for a high quality of light and energy savings of up to 80%. In addition, LED lamps help you benefit from a long service life, low heat generation and at the same time protect the environment.
