

Light source

GLOBE – 988-679

E27 LED, 6W · 660lm, 2700K

- **Not dimmable**

The GLOBE LED filament light source with E27 socket has a vintage look and is ideal for luminaires where the light source takes centre stage. The amber-coloured glass of the light source filters the light and emits it gently into the surroundings. Modern LED technology is characterised by high light quality and energy efficiency. Compared to conventional halogen light sources, up to 80% of energy costs can be saved. LED light sources also have a long service life, generate less heat and protect the environment.
