The one-light wall lamp of the PUNCH series convinces with its industrial look and fits perfectly into modern, puristic furnishing styles in your kitchen or bedroom. The modern shade, which is complemented on the inside by a second smaller shade in a lattice look as a design element, comes into its own wonderfully and provides special lighting effects. For flexible use, the wall light is also equipped with the FLEXconnect feature. This makes the luminaire suitable for fixed connection both via the cord switch and directly without a cable feed. In this case, the luminaire is operated via a conventional wall switch. The stylish shape and colour design of the luminaire in matt black and gold colours gives your own four walls an industrial ambience. For energy-saving lighting, it is recommended to use an LED illuminant. These are an optimal alternative to conventional halogen lamps and stand for a high quality of light and energy savings of up to 80%. In addition, LED lamps help you benefit from a long service life, low heat generation and at the same time protect the environment.
