**WELCOME**

# THE LATEST **LIGHTING SOLUTIONS** HIGHLIGHTED

Light4U is a Dutch producer and importer of high-quality LED luminaires. We also work with leading brands. This means we always have an innovative solution for every lighting situation. We're happy to share our knowledge with you.

Light4U, *sparkled* by us.

# THIS LEDBOOK

Navigating this brochure is easy. On page 8 our luminaires are arranged per category and thanks to the visual index you can find the luminaire that you are looking for in no time. To clearly display all the features and options of the luminaires, we use icons per product page. An explanation of these icons can be found on page 14.

Do you want **more detailed product information**? Extensive datasheets and the performance of each luminaire can be found on our website [light4u.io](https://light4u.io). Choose 'Products' and simply select your favourite luminaire. Specific questions or wishes? We are happy to help you with a tailor-made solution.

# ICONS

See the features and options of the products at a glance, by checking the icons on the product pages in this LED Book. Here we explain the meaning of these icons.

Accentuates the freshness of fruit and vegetables.

Warm yellowish light gives a perfect appearance to cheese and other dairy products.

Fresh and cooked meats have a saturated red color under this light. A boost of red for the meat counter.

Bluish white light promotes freshness of fish and seafood.

This light color has a light brown tinge to give an oven-fresh appearance to crusty bakery products.

Optimized light spectrum for perfect fashion presentation.

This LED module offers a high quality of light that is needed for displaying high-value exhibits. The average value of the Art series is an impressive CRI 98. MacAdam 2 ellipses are used in this special product category to also provide an outstanding color consistency.

For spot and accent lighting in fashion, retail, hospitality and supermarket applications.

Unique combination of white rendering and rich colors from one LED source.

Dim to a warmer color from 3000K to 1800K for creating the right atmosphere.

Light color from 2700K to 6500K to set an individual color temperature depending on the application. Used for well being (daylight simulation) and for increasing the performance in offices and workshops.

Digital dimming interface.

Analog dimming interface.

Wireless lighting control based on Bluetooth.

Built-in emergency unit for escape route lighting.

The clear glass is protecting the light source and reflector from dust and other dirt that could enter the optical part of the luminaire.

The frosted glass is protecting the light source and reflector from dust and other dirt that could enter the optical part of the luminaire. In addition to that, it also widens the beam and creates a different footprint.

Honeycombs are widely used to reduce the direct glare. Luminaires with honeycombs have usually a tighter beam.

Barn doors are used to shape the light. The barn doors position changes the nature of the light shape. Two side flaps closed together might produce a slim light shape like light passing through a partially open door. All four doors closed together will produce a square focussed beam of light.

Unified Glare Rating < 19, suitable for reading, writing, training, meetings and PC based working environments.

Ingress Protection 40: protected against solid objects, not watertight.

Ingress Protection 65: dustproof and protected from water spray.

Type of power distribution specially developed for the connection of lighting cables above the ceiling.

Warranty on quality in years.

# TRACK LUMINAIRES

---

# HUGINN R

Adjustable 3-phase LED track spotlight with incorporated driver in Nordic track adapter. Available in CCT from 2700K till 5700K in CRI80 or CRI90 and also in special colors that allows installations in a large range of applications.

## Features and options

Beam angle 20° / 36° / 50°

Max. **3150** lumen

View full specs at [Light4u.io](https://Light4u.io)

# EDDA S

Adjustable 3-phase LED track spotlight with incorporated driver in Nordic track adapter. Available in CCT from 2700K till 5700K in CRI80 or CRI90 and also in special colors that allows installations in a large range of applications.

## Features and options

Beam angle 15° / 24° / 45° / 55°

Max. **2500** lumen

View full specs at [Light4u.io](http://Light4u.io)

# EDDA M

Adjustable 3-phase LED track spotlight with incorporated driver in Nordic track adapter. Available in CCT from 2700K till 5700K in CRI80 or CRI90 and also in special colors that allows installations in a large range of applications.

## Features and options

Beam angle 20° / 30° / 45° / 55°

Max. **3350** lumen

View full specs at [Light4u.io](http://Light4u.io)

# EDDA

Adjustable 3-phase LED track spotlight with incorporated driver in Nordic track adapter. Available in CCT from 2700K till 5700K in CRI80 or CRI90 and also in special colors that allows installations in a large range of applications.

## Features and options

Beam angle 15° / 30° / 45° / 60°

Max. **4450** lumen

View full specs at [Light4u.io](http://Light4u.io)

# YMIR

Adjustable 3-phase LED track spotlight with incorporated driver in Nordic track adapter. Available in CCT from 2700K till 5700K in CRI80 or CRI90 and also in special colors that allows installations in a large range of applications.

## Features and options

Beam angle 15° / 30° / 45° / 60°

Max. **4450** lumen

View full specs at [Light4u.io](https://Light4u.io)

# LIVAL GA-016 CAFETERIA

Adjustable 3-phase LED track spotlight with incorporated driver in Nordic track adapter. Available in CCT 3000K and 4000K in CRI80 or CRI90 and also in special colors that allows installations in a large range of applications.

## Features and options

Beam angle 15° / 20° / 30° / 50°

Max. **3200** lumen

View full specs at [Light4u.io](http://Light4u.io)

# TUBE

Adjustable 3-phase LED track spotlight with Nordic track adapter and lens optics. Available in CCT from 2700K till 5700K in CRI80 or CRI90 and also in special colors that allows installations in a large range of applications. Also available in 1-phase.

## Features and options

Beam angle 15° / 24° / 36°

Max. **3000** lumen

View full specs at [Light4u.io](http://Light4u.io)

# TUBE R

Adjustable 3-phase LED track spotlight with Nordic track adapter. Available in CCT from 2700K till 5700K in CRI80 or CRI90 and also in special colors that allows installations in a large range of applications. Also available in 1-phase.

## Features and options

Beam angle 15° / 30° / 45°

Max. **3370** lumen

View full specs at [Light4u.io](http://Light4u.io)

# SURT

Adjustable 3-phase LED track spotlight with Nordic track adapter. Available in 3000K. Stepless adjustable beam angle from 15° till 60° provides unprecedented flexibility within several applications. Dimmable with a small potentiometer on the back side of the luminaire gives you the freedom to choose the light level without any control system. Also available in 1-phase.

## Features and options

Beam angle 15° - 60° (zoom lens)

355° 90°

Max. **2150** lumen

View full specs at [Light4u.io](http://Light4u.io)

*Sparkled by us.*

# THOR

Adjustable 3-phase LED track spotlight with Nordic track adapter. Available in CCT from 2700K till 5700K in CRI80 or CRI90 and also in special colors that allows installations in a large range of applications. Also available in 1-phase.

## Features and options

Beam angle 15° / 30° / 45° / 60°

Max. **4450** lumen

View full specs at [Light4u.io](http://Light4u.io)

# FREYA

Adjustable 3-phase LED track spotlight with Nordic track adapter. Available in CCT from 2700K till 5700K in CRI80 or CRI90 and also in special colors that allows installations in a large range of applications. Also available in 1-phase.

## Features and options

Beam angle 20° / 30° / 45° / 55°

Max. **4450** lumen

View full specs at [Light4u.io](http://Light4u.io)

# SAGA

Adjustable 3-phase LED track spotlight with Nordic track adapter. Available in CCT from 2700K till 5700K in CRI80 or CRI90 and also in special colors that allows installations in a large range of applications. Also available in 1-phase.

## Features and options

Beam angle 20° / 30° / 45° / 55°

Max. **4450** lumen

View full specs at [Light4u.io](https://Light4u.io)

# ODIN

Adjustable 3-phase LED track spotlight with Nordic track adapter. Available in CCT from 2700K till 5700K in CRI80 or CRI90 and also in special colors that allows installations in a large range of applications. Also available in 1-phase.

## Features and options

Beam angle 20° / 30° / 45° / 55°

Max. **4450** lumen

View full specs at [Light4u.io](http://Light4u.io)

## LIVAL ASPECT

Adjustable 3-phase LED track spotlight with Nordic track adapter. Available in CCT from 2700K till 5000K in CRI80 or CRI90 and also in special colors that allows installations in a large range of applications.

### Features and options

Beam angle 15° / 28° / 35°

Max. **4475** lumen

View full specs at [Light4u.io](http://Light4u.io)

*Sparkled by us.*

WE LOVE OUR PROFESSION,  
AND WE STRIVE TO BE  
**A SHINING EXAMPLE**

Because we don't just want to meet your expectations, we want to exceed them! How do we do that?

By putting our three core values Home, Flexibility and Vibrant into practice in everything we do.

*Spark**led** by us.*

## CORE VALUE 1 \ HOME

A wide range, a large stock and an innovative technical department. We have **everything it takes** to deliver customised quality. The up-to-date knowledge of our buyers and sellers guarantee the smartest lighting solutions possible. Quality and innovation: that's our expertise.

*Sparkled* by us.

## CORE VALUE 2 \ **FLEXIBILITY**

We understand that you are not always looking for a standard solution, and that speed is always a must. We know better than most how the lighting industry works. That is why we are a **flexible partner**, and if necessary, almost as fast as light.

*Sparkled by us.*

## CORE VALUE 3 \ **VIBRANT**

The typical 'sparkle' of Light4U can be seen in everyone who works with us. We just love to move forward as a team and have fun. When you have a **passion for what you do**, it makes a difference. Not only for you as a customer, but also a little bit for the world around us.

## HOW OUR **SPARKLE HELPS**

We enjoy making progress! For you as a customer, for ourselves and for the world around us. That's why we make an effort to support the ALS Foundation. How? By running, walking, driving or cycling, so that our energy helps ALS research move forward. Want to know more? Check [light4u.io/about-us](https://light4u.io/about-us)
